Maria Schmidt

05.05.2026

Project Manager in automotive electronics, preferably in the Saarland / Lorraine / Luxembourg region, companies with 200+ employees, full-time position.

Independent technical consultant for diagnostics and ECU systems, focusing on CAN-Bus and UDS protocol.

20 years of experience in vehicle production and electronics diagnostics. Specialised in ECU programming, CAN-Bus analysis and OBD-II protocols. Multilingual: German (fluent), French (fluent), English (native). Team leadership up to 8 people, structured approach, high attention to detail.

Saarland, Lorraine, Luxembourg. Automotive, mechanical engineering, suppliers. Mid-sized to large companies (100 to 2000 employees).

01.02.2026

28.01.2026

The first month was an orientation phase. I familiarised myself with the support services available and started updating my CV. Made first contact with former colleagues in the sector.

Partially achieved

My CV is now complete. Job search took longer than planned - will focus more intensively on this in February.

The support from my advisor was very helpful. I gained clarity on my professional strengths.

Help writing a compelling cover letter in German and French.

Review cover letter templates. Networking strategy for the cross-border region.

01.03.2026

26.02.2026

Very active month. I attended two job interviews - one with a supplier in Saarbruecken, one with a company in Metz. Both interviews went positively, still awaiting feedback.

Fully achieved

Target was 2 applications - sent 5 and obtained 2 interviews.

My technical expertise was very positively received in both interviews. A networking conversation with a former colleague led to a referral for the Saarbruecken role.

Coaching on salary negotiation. Unsure how to position my salary expectations in the cross-border region (DE/FR/LU).

Prepare salary negotiation. Decision criteria when receiving multiple offers.

Saarbruecken interview: 15.02.2026. Metz: 22.02.2026.

01.04.2026

28.03.2026

I received a written offer from the company in Saarbruecken. The offer is interesting, but some contract points (remote work policy, annual leave) do not fully meet my expectations. I am currently in the reflection phase.

Fully achieved

All goals from the last session were achieved. Offer received, negotiation position prepared.

The salary coaching was very helpful. I managed to improve the initial offer by 8% through targeted argumentation.

Support evaluating contract terms. Comparison with employment law in the cross-border region.

Analyse contract terms: remote work, annual leave, notice period. Decision required by 15 April.

Offer received on 20.03.2026. Decision deadline: 15.04.2026.
